Development: HTML, CSS, JavaScipt, React.js, Tailwind CSS, SEO
Database: MySQL, Supabase
Others: Git, GitHub, Vercel

Experience

Concentrix Daksh   **Full-time — Onsite**
Advisor   *April 2024 – September 2024*
- Resolved customer inquiries and issues in real-time, delivering prompt and effective solutions.
- Collaborated with cross-functional teams to streamline workflows and improve service delivery.
- Maintained strong product knowledge to provide accurate and timely support.

Projects

ATOM – Mental Health Platform | *React, Tailwind CSS, Supabase*

Live Project Link

- Developed a responsive mental health platform integrating AI support, self-assessment tools, and community features.
- Implemented interactive depression tests, verified therapist search, and a "Meet People Around You" feature.
- Designed a calming zone with guided breathing, relaxing music, and quick mood tools for stress relief.

GitInsights | *HTML, CSS, JavaScript*

Live Project Link

- Built a responsive learning platform simplifying Git and GitHub concepts for beginners and CS students.
- Integrated a chatbot and embedded YouTube tutorials for hands-on learning.
- Provided structured guidance on Git commands, workflows, and version control best practices.

Wallet – Digital ID Manager | *React, Redux Toolkit, Supabase*
Live Project Link

- Developed a web application to securely store and instantly access important ID documents, eliminating the need for physical wallets or cluttered phone galleries.
- Designed a clean, card-based interface for fast retrieval and organized management of IDs.
- Implemented state management using Redux Toolkit along with React, Supabase, and Tailwind CSS to ensure scalable, responsive, and maintainable UI.
